Quality of teaching and progress for all children					
Desired outcome	Chosen action / approach	What is the evidence and rationale for this choice?	How will you ensure it is implemented well?	Staff lead	When will you review implementation?
Children develop their autonomy, decision-making, self-discipline, involvement, independence and emotional well-being.	Each child will have a key worker who understands their individual characteristics and needs. The class teaching team will observe the child continuously and assess them regularly, identifying the next steps for learning and development. This will be part of the continuous cycle of 'learning reviews' that are undertaken for all children on a weekly basis.	Colleagues provide planned learning and teaching opportunities through our wonderful free-flow environment, the use of play, talk, investigation and problem-solving, first-hand experiences, games and group activities. Differentiated group times will be offered twice daily and through continuous provision opportunities.	Monitored by SLT	Headteacher	Pupil progress meetings, data analysis and monitoring observations
